# Kitchen fittings

## the way you want

Here at Zinc Plus we have a simple ethos " Fantastic quality at a realistic price". Zinc Plus established in the year 1999, a well known manufacturer of Modular Kitchen & Accessories. We formed because over the years we have seen people paying over the odds for Kitchen interior alterations and with over 15 years experience we believe we can offer you a professional, friendly and unique experience. All our products have been carefully selected so that we can offer our customers a design to suit their needs and budget.

Kitchen – The heart of the House.

Contemporary living means that the focal point of the house is now the kitchen. It is central to the daily activities of the home to provide a warm, functional place to chat, watch the TV, entertain friends, or even cook! Nowadays it is a multi-purpose part of the house. In days gone by, houses were designed for dividing up the differing daily routines, but no longer.

It is a room space that inspires and helps to make the day enjoyable in providing the pivotal location of the house. It is a unique space with the blend of practical living, comfort, quality design and above all, somewhere to prepare and eat a meal. So Keeping this in mind Zinc Plus kitchens & accessories are built to the highest standards and feature all the latest technologies you would expect (and you would demand) from your kitchen - soft close drawers, clever corner units, double pull-out unit, perforated cutlery, progressive door hinges, etc.

# Cutlery - Basket

One of the cleanest, slickest ways to improve your kitchen storage is to replace those basic old mdf shelves with smooth running, easy access pull out baskets – and we now have a new range on Zinc Plus that fit into wider cabinets.

These sturdy pull out baskets come with soft close runners, meaning that not only do they conveniently pull-out to make accessing your groceries or kitchen accessories much easier, but they also do so quietly!

## Pullout Unit

Maximising your kitchen storage space is something of a skill – and seeking the absolute most from a small space is a real trick. So we're delighted to announce a series of new products that offer you pull out storage in a narrow space. These pull out storage units give you a storage mechanism – either racks for groceries, like spices, Jars etc.

### PULLOUT ORGANISER (TWO SHELF)

ZP66	230x508x500	9x20x20

## Corner Unit

Great value corner carousel improves kitchen storage. The trick about a Corner unit is in its ability to maximise storage in those awkward corner kitchen units. Well a corner unit is a sleek, neat unit that folds it away into those dark inner reaches – and then folds out equally efficiently when you open the door. No more burying stuff in the furthest corners, no more frustrating waste of space – and no more dropping to your knees for the sake of a tin of beans.

### SWING CORNER (Left & Right)

## Tall Unit Pullout

Maximise kitchen storage with a pull out larder. One of the best ways to improve your kitchen storage is to use cabinet based basket systems like the tall unit pull out larder. Each system consists of a framework that is fitted to the door and interior of the kitchen cupboard with runners, to allow the unit to pull out smoothly and easily. The larder systems also come with from 4 to 12 wire baskets, depending on the size, which give you quick and easy access to your groceries, crockery or pots and pans. Solid, Practical and Easy to use.

## Midway System

### Hanging Storage Adds Another Dimension

Wall mounted hanging storage is a great way to expand your facilities in the kitchen. The Midway range of wall storage offers fantastically flexible options to make the most of your wall space. You can mix and match your unit by purchasing a wall mountable rail and then selecting the storage items to hang from it, like a wine rack or spice rack cookbook holder, towel holder, cutlery or utensil basket – and much more.
